The next-generation MT-07 gets distinctive new bodywork with twin winglet-type air intakes and a compact new LED headlight that projects a futuristic Y-shape face, the signature style for the latest Hyper Naked models. And the refined 'Learner Approved' 655cc engine gives you even more linear response with a gutsier exhaust note.

New wider aluminium taper handlebars give easier turning and a more commanding riding position, while larger 298mm dual front discs deliver stronger braking, and the inverted LCD instruments as well as black control levers and compact LED flashers underline the top specification and best-in-class value.
